

Team Responsibility

Requested group: XX

Member details were not supplied. Replace the TBD entries with the actual student ID, name, and agreed responsibility before submission. Do not treat this draft allocation as evidence of completed work.

Work area	Responsibility summary	Assigned member
Project planning	Topic approval, requirements, scope tracking, and milestone planning.	TBD
Authentication	Registration, login, password hashing, JWT issue/verification, and protected requests.	TBD
Doctor directory	Doctor schema and CRUD endpoints, validation, and image upload/display.	TBD
Appointments	Appointment references, CRUD/status flow, ownership, and overlap business rule.	TBD
Mobile application	Expo screens, navigation, forms, validation, loading/error states, and API integration.	TBD
Database and deployment	MongoDB Atlas setup, environment configuration, deployment, and live API verification.	TBD
Documentation and demo	Architecture/schema diagrams, endpoint reference, report, and demonstration preparation.	TBD

Assignment-format note

The assignment brief previously provided describes an individual assignment, while this requested ZIP template is for a group submission. Confirm with the lecturer which format and responsibility statement apply before uploading.
